Re: EN 71-3:2013 (Category III; Scraped-off materials)

Product name/number

GLS 466-018 NATURAL / EM10035634OS
GLS 466-096 NATURAL / EM10038785OS
LC 466-019 / EM1003563562

Dear Valued Customer:

This letter is being sent to you regarding the compliance of the product(s) listed above for EN 71-3:2013.

Based on the information provided to PolyOne GLS Thermoplastic Elastomers by its raw material suppliers and our formulation reviews, we confirm that the above PolyOne GLS product should not contain EN 71-3:2013 substances nor should any such substances be present in the product above the applicable migration limits as listed in **Category III; Scraped-off toy material (e.g. plastic, wood, coatings, textiles)**:

- | | |
|----------------|-------------|
| Aluminum | Copper |
| Antimony | Lead |
| Arsenic | Manganese |
| Barium | Mercury |
| Boron | Nickel |
| Cadmium | Selenium |
| Chromium (III) | Strontium |
| Chromium (VI) | Tin |
| Cobalt | Organic tin |
| | Zinc |

Additionally, PolyOne GLS does not intentionally add or use these substances in the manufacturing process of these products. Please note however, this product has not been tested for the presence of these substances.

If you have any questions concerning this matter or if we can be of further assistance, please do not hesitate to contact us. Please contact your PolyOne GLS Thermoplastic Elastomers Sales Representative should you need additional product support.

Sincerely,

Kristen Hardesty
Regulatory Manager
